

Scott Montminy

Lead Designer & Front-end Engineer

Front-end design engineer and content strategist with a well-rounded background, focused on creating clean, precise user experiences on the web. Work includes web design, development and content strategy for ecommerce sites, web applications, mobile/responsive projects and marketing campaigns. Accomplished as an entrepreneur, specialist, and manager in multiple business sectors.

Lead Designer & Front-end Engineer

2012 – present

Capterra – Arlington, VA

Lead all design and front-end development efforts related to Capterra's design system, CSS framework, public-facing website, Vendor Portal and internal CRM system. Also responsible for creative direction for marketing campaigns, infographics and other visual resources.

Founder, Designer & Engineer

2009 – present

Made in the Studio – Arlington, VA

Design and develop concise user interfaces and experiences for ecommerce, web applications and marketing campaigns for the web. Skilled engineer with expertise in hand-coding graceful HTML, CSS and JavaScript/jQuery. Portfolio is available at madeinthestudio.com.

Web Developer

2010 – 2012

Gin Lane Media – New York, NY

Front-end web developer for various web projects, including Saturdays NYC, Olasul, Maiyet, Ray Kay, Madison Property Group, and many more. Served as the ecommerce and Vae Platform specialist.

Project Manager & Business Analyst

2009 – 2010

MetroStar Systems – Reston, VA

Managed software and web development projects of varying size and scope for government, non-profit and commercial organizations. Practiced the AGILE project management system with a heavy focus on leveraging requirements based on user-experience stories.

Manager of Information Systems

2008 – 2009

American Clean Skies Foundation – Washington, DC

Served as the content manager for the company website, and directed all internal information technology efforts. Managed the relationships, proposals and contract negotiations with all technology vendors.

Network Engineer & Technician

2000 – 2008

Verizon Communications – Washington, DC

Bachelor of Science in Electrical Engineering

2003

Catholic University – Washington, DC

Master of Science in Telecommunications

2005

University of Maryland – College Park, MD

Graduate Courses in Electrical Engineering

2007

Virginia Tech – Falls Church, VA
